Biography

AI integration isn't about replacing human intelligence; it's about enhancing your authentic business voice.

Marline Paul is a sought-after AI educator and keynote speaker who teaches entrepreneurs, leaders, and organizations how to use technology with clarity, confidence & care. As the founder of Enilram Creative Solutions™ and creator of The 3T Framework™, she specializes in making AI practical and accessible, moving audiences from overwhelmed and uncertain to equipped and confident.

With 17 years as a classroom educator, Marline brings unmatched teaching expertise to complex technology topics. She has trained 1,600+ professionals through technology education programs and guided 200+ entrepreneurs directly through her workshops, certifications, and coaching programs.

A 2025 Double Gold Award Winner from SCORE Mentors Broward, recognized as both Business Educator and Mentor of the Year, and a Goldman Sachs One Million Black Women: Black in Business alumna, Marline's recent speaking engagements include the CREW AI Panel at Tower Club Fort Lauderdale, the Koneksyon Plus Business Conference, the Florida Assisted Living Consulting Podcast, the 2026 Florida ALF & Caregivers Conference, and a U.S. Rep. Debbie Wasserman Schultz Small Business Workshop on practical AI tools.

As host of the annual Get Equipped AI Summit™ and founder of Get Equipped Academy™, Marline created year-round learning communities where entrepreneurs implement AI strategically. Her programs, including the ECS AI Leadership Compass™ certification and the ECS Integration Specialist Program™ for college students, are building the next generation of responsible AI leaders.

Marline brings a unique perspective as a Black woman entrepreneur and military spouse. Her woman-owned, military spouse-owned business holds multiple certifications, including WOSB, SBE, and government contractor credentials.

Her mission is simple: to ensure no entrepreneur gets left behind in the AI era.

to me ▾

Attending Enilram Creative Solutions' AI Integrated Workshop Summit was a truly transformative experience for me and my business. The training was clear, practical, and incredibly informative—I walked away with real strategies on how to successfully integrate AI into my daily operations, and I'm already seeing the benefits.

The CEO and organizer of the event, Marlene Paul showed genuine passion for helping people grow and thrive. It was clear that supporting business owners is at the heart of everything she does. Her leadership created an environment that was both inspiring and empowering.

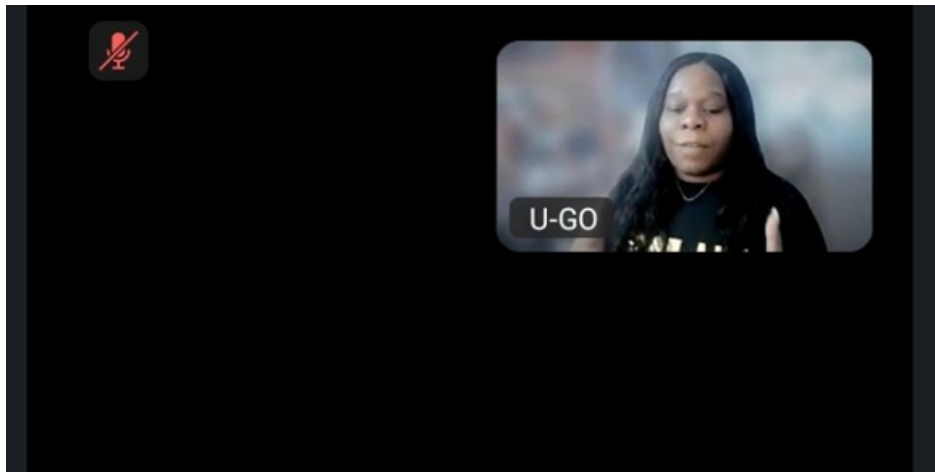

The participants were equally amazing—engaged, supportive, and eager to learn. Being part of such a positive and collaborative group made the experience even more enjoyable.

Overall, this workshop was not just helpful; it was a game-changer. I feel more confident, more equipped, and excited about the future of my business with AI as a partner. I highly recommend Enilram Creative Solutions to anyone looking to elevate their business with the power of AI.

Respectfully yours,

Windell Moore CPA PA

TESTIMONIALS

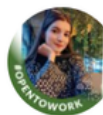

AI Applications and Use Cases

AI has numerous applications across different industries and personal use cases. As well as bias.

We all need to be involved.

"If you have a face, you have a place in this conversation."

- Joy Buolamwini, Founder & Executive Director of the Algorithmic Justice League, former MIT Media Lab researcher, and Poet of Code

I recently attended LIVE AI Foundations workshop arranged by [U-GO](#), guided by instructors [Marline Paul](#) and [Erika Gianni](#). The sessions provided valuable insights into the fundamentals of AI and its practical applications.

Here are some key takeaways from the workshop:

- Understanding core AI applications and real-world use cases
- How to structure and build projects using AI
- Fundamentals of effective prompting
- Foundations of Generative AI and responsible usage
- What Large Language Models (LLMs) are capable of
- Where LLMs require human reasoning and oversight
- How to analyze information efficiently with AI tools
- The importance of AI + Human collaboratio ...more

veracityresearchsolutions 🎉🎉🎉 Belated but heartfelt gratitude to Enilram Creative and SheLeadsAI for awarding Veracity the Get Equipped AI Summit Startup Grant + SLAI membership. We're also grateful for the care and intention behind the summit. The experience was incredibly valuable and, because of you, we're now able to level up the work we're doing as a company!
